## DETAILED ACTION

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1-9 are allowable over the prior art of record. The closest prior art of record Cotner teaches a two-phase commit which can be rolled back or committed to two different databases, however it fails to teach that the stored procedure and one or more transactions are committed or rolled back and the coordination database invokes a transaction protocol interface using a two-phase commit, these limitations being indicated in claim 1 as "extending a database transaction to include at least one user-defined operation that accesses a computer resource by means of a Transaction Protocol describing a two-phase commit application programming interface (API)" where "said database transaction includes both said user-defined operation and one or more database operations, wherein said database transaction is initiated with a begin transaction operation and ends with a commit or rollback operation" where "in response to performing a commit of said database transaction, coordinating a commit of said computer resource accessed by said user-defined operation by said database invoking said Transaction Protocol Interfaces; and in response to performing a rollback of said database transaction, including said user-defined operation in said rollback by said

database invoking said Transaction Protocol Interfaces to roll back said computer resource".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jay A. Morrison whose telephone number is (571) 272-7112. The examiner can normally be reached on M-F 8-4:30.
